Applications

Chatur is a multi purpose finishing disc, primarily focussed on hard surfaces in the construction industry. **Chatur** has the capability to do finishing operation on a variety of materials like

- Grinding of concrete surfaces to remove bulges, undulations, steps in form-work joinery
- Hacking of columns and structures to prepare surfaces for plastering
- Chamfering, forming of full and half radius in granite
- Grinding / chamfering / finishing of marble edges, while laying

Being a multi-purpose disc, **Chatur** can also be used for fettling, weld removal and to create decorative finishes on wood.

Features

- No clogging on the disc - hence long lasting.
- No harmful smoke/ odor emitted - Environmentally safe.
- Faster working on any material - Reduces work time.
- Reduces operator fatigue in difficult applications like Hacking / Grinding concrete surfaces.
- No use of segments. Elimination of accidents / damages due to segments pull outs.
- No structural damage.
